Getting Started / Logging into Make It! Personal v2

Before you can access Make It Personal, you must register with our Customer Service department to obtain login credentials.

Call 1-800-827-5151 to speak with a Customer Service representative about having an account created. (M–F, 8:00a–6:00p EST)

If you’ve used Make It Personal before, your existing login will still allow you to access the new version.

Login here:
https://mipv2.messengerstationery.com/Account/Login

If you forget your password, simply click the link just below the login fields. You’ll be prompted to enter your username. Once submitted, you’ll be sent an email with a randomized temporary password to get you into the system. Once logged in, you can change your password by navigating to Menu > Location Info and Settings > Users.
Requirements for using Make It Personal:

- PC or MAC desktop computer
- A broadband internet connection
- A printer, preferably laser(toner)-based, with color capability
- Internet Browser application:
  - As MIPv2 is built using HTML5, this should work with most of today’s most popular browsers, however, MIP v2 has been tested for compatibility with the following browsers:
    - Internet Explorer (PC)
    - Mozilla Firefox (Mac & PC)
    - Google Chrome (Mac & PC)
    - Apple Safari (Mac)
