

Creating a Tukios Tribute Video in Make It! Personal

1. Login to Make It! Personal (<https://mipv2.messengerstationery.com>)
2. If entering a new case, begin entering decedent info- first/last name, dates, and pick a location

If the case has previously been saved, choose *Fill From a Past Case*, then choose a case from the Case Name dropdown

Click *Select a Product* to proceed

3. On the Select Product screen, scroll to the bottom and choose the *Tribute Video* icon

4. On the Review Design screen, click the word “*here*” to launch the Tukios portal

5. The Tukios page will open in a new tab. A *Video Settings* pop-up immediately appears, and you can make any desired changes to the introduction text. Click *Save* when ready.

The screenshot shows a 'Video Settings' pop-up window with a green header and a close button (X) in the top right corner. The window contains the following fields and a button:

- Introductory text:** A text input field containing 'In Loving Memory'.
- Title*:** A text input field containing 'Marvin Thomas T. Walk'.
- Subtitle:** A text input field containing '1945 - 2018'.
- Save:** A button at the bottom of the window.

6. **Theme** - Next, choose a theme for your video slideshow. Note that themes that match MIP stationery series are only available when accessing Tukios via Make It! Personal! Selecting any theme will advance you to the next step.
7. **Family Upload Setup** – OPTIONAL

If enabled, the *Upload Link* provides a web address link that can be emailed or otherwise provided to the family of the decedent allowing them to directly upload photos for use in the slideshow

The screenshot shows the 'Family Upload Setup' page in the Tukios interface. The page has a green header with the Tukios logo and 'Family Upload Setup' text. Below the header is a progress bar with steps: Theme, Upload Link (current), Slides, Music, Preview, and Finalize. The main content area includes:

- A profile picture and name: 'Marvin Thomas T. Walker Jr. 1945 - 2018'.
- The title 'Family Upload Setup'.
- A message: 'Send the family this link and let them add their photos and videos. They love it and you won't have to scan!'.
- An 'Enable Upload Link' toggle switch, which is currently turned on.
- A URL: 'https://www.tributeslides.com/up/101599244755' with buttons for 'COPY', 'EMAIL', and 'TEXT MESSAGE'.
- A 'SETTINGS' button with a gear icon.
- 'Back' and 'Next' navigation buttons at the bottom.

The *Settings* button allows you to set a limit to the total number of photos allowed, and/or enables access allowing the family to have additional control over the video theme, music, and editing of uploaded photos.

When ready, click *Next* to proceed.

- Slides** – In this step use the *Upload Photos/Videos* button to add images or video clips to the slide show. If images have already been uploaded to the MIP Case Profile, they will automatically appear here. Additionally, any photos uploaded in this step will automatically transfer back to the MIP Case Profile after the video has been finalized.

You can drag and drop any of the photos to determine their order in the slideshow. The very first photo will automatically become the Cover Photo (intro slide). Note as you hover your mouse cursor over each image, there are additional controls for editing/deleting/retouching photos.

The *More* button provides some additional customization, including slide transitions, special effects, and more.

When ready, click *Next* to continue.

- Music** – Use the *Add Music* button to add music selections to accompany the slideshow. Stock Music is free to use, Mainstream Music is available for a charge.

The amount of music added has some interplay with the overall length of the slideshow and individual slide duration. You can uncheck the *Automatic* option to manually override the Seconds per Slide.

When ready, click *Next*
